

Using web fonts

Using centrally-hosted web fonts on any *.osu.edu site is easy. First, add a line of code in the <head> of your web page to add the webfonts.css file.

```
<link rel="stylesheet" href="http://www.osu.edu/assets/fonts/webfonts.css">
```

Next, specify the font-family, font-weight, and font-style in your site CSS file. For example, if you want your H1 styles to use Proxima Nova Bold Italic, use:

```
h1 {font-family:'proximanova',Arial,sans-serif; font-weight:700; font-style:italic;}
```

To have your paragraph text use Capita Light, use:

```
p {font-family:'capita','Times New Roman',serif; font-weight:300;}
```

CSS examples

Proxima Nova		Capita	
	font-family:'proximanova',Arial,sans-serif;		font-family:'capita','Times New Roman',serif;
Thin	font-weight: 100;	Extra Light	font-weight: 100;
Thin Italic	font-weight: 100; font-style: italic;	Extra Light Italic	font-weight: 100; font-style: italic;
Light	font-weight: 300;	Light	font-weight: 300;
Light Italic	font-weight: 300; font-style: italic;	Light Italic	font-weight: 300; font-style: italic;
Regular	font-weight: 400;	Regular	font-weight: 400;
Italic	font-weight: 400; font-style: italic;	Italic	font-weight: 400; font-style: italic;
Semibold	font-weight: 600;	Medium	font-weight: 600;
Semibold Italic	font-weight: 600; font-style: italic;	Medium Italic	font-weight: 600; font-style: italic;
Bold	font-weight: 700;	Bold	font-weight: 700;
Bold Italic	font-weight: 700; font-style: italic;	Bold Italic	font-weight: 700; font-style: italic;
Extra Bold	font-weight: 800;	Black	font-weight: 900;
Extra Bold Italic	font-weight: 800; font-style: italic;	Black Italic	font-weight: 900; font-style: italic;
Black	font-weight: 900;		
Black Italic	font-weight: 900; font-style: italic;
